

**MTZ Clinical Research Sp. z o.o. (MTZ)** is the leading Polish company specialized in conducting early phase clinical trials, bioequivalence and bioavailability studies. The company has been operating since 2002, conducting studies for European and American pharmaceutical and biopharmaceutical companies and CROs (Contract Research Organizations).

The Company head office and its own Clinical Research Site are located on the premises of the Institute of Experimental and Clinical Medicine of the Polish Academy of Sciences in Warsaw.

MTZ has conducted above 100 research projects with over 6000 participating healthy subjects and patients. Subjects are recruited from our own registered database of volunteers and through collaborating investigators.

**MTZ Clinical Research specializes in clinical studies:**

- Early development stages (I-IIb) incl. BA and BE – comprehensive services
- Phase III - highly specialized Clinical Research Site
- Biosimilar products
- Medical Devices
- Dermatological products (including BE)
- Dermatocosmetics

**Oncological product clinical studies:**

MTZ carries out studies of innovative and generic products (phase I/II and BE studies). Company has cytotoxic drug preparation laboratory equipped with a laminar flow cabinet. Through collaboration with experienced and renowned oncologists MTZ has access to potential study subjects.

**The following services are provided:**

- Consulting – non-clinical and clinical trial strategy and planning
- Medical writing
- Clinical study registration
- Clinical Project Management
- Comprehensive study conduct
- Study monitoring
- Data management and biostatistics

MTZ Clinical Research has opened office in the USA. From its new office, MTZ is offering a broad list of consulting and operational services involving regulatory and clinical development and strong expertise in domestic and international clinical project management and operational leadership covering the USA and Canada.

Since August 2009 MTZ Clinical Research holds an ISO 9001:2008 Certificate (UKAS Quality Management)

Dynamic Company certificate is awarded by HPI Poland for dynamic development of the company within last 3 years
